INSTRUCTIONS

Use 2 strands of embroidery thread for the entire stitchery.

Follow the directions below using 2 strands of DMC NO 938 (brown) & the stitches quoted.

Refer to the stitch guide provided if your unsure about any of the stitches quoted.

BACKSTITCH

The entire stitchery, with the exception of the door knob, is stitched in this stitch.

FRENCH KNOTS

Use this stitch for the door knob.

PILLOW ASSEMBLY

Once all the stitching is complete press the stitchery to remove any creases.

Ensure its nice & flat. Do the same with the fat 1/8th of printed fabric.

From the fat 1/8th cut 2 pieces of fabric 8 x 10 inches. Set these aside.

Now cut a piece of fusible webbing 5 x 7 inches. Iron to the back of the stitchery.

Ensure the fusible webbing is placed centered & be careful not to get any creases.

Trim the stitchery size down to 6 x 8 inches.

Peel away the backing paper from the stitchery.

Centre the stitchery onto one of the pieces of printed fabric & iron into position.

Now using 2 strands of DMC 938 (brown) do a blanket stitch border around the stitchery

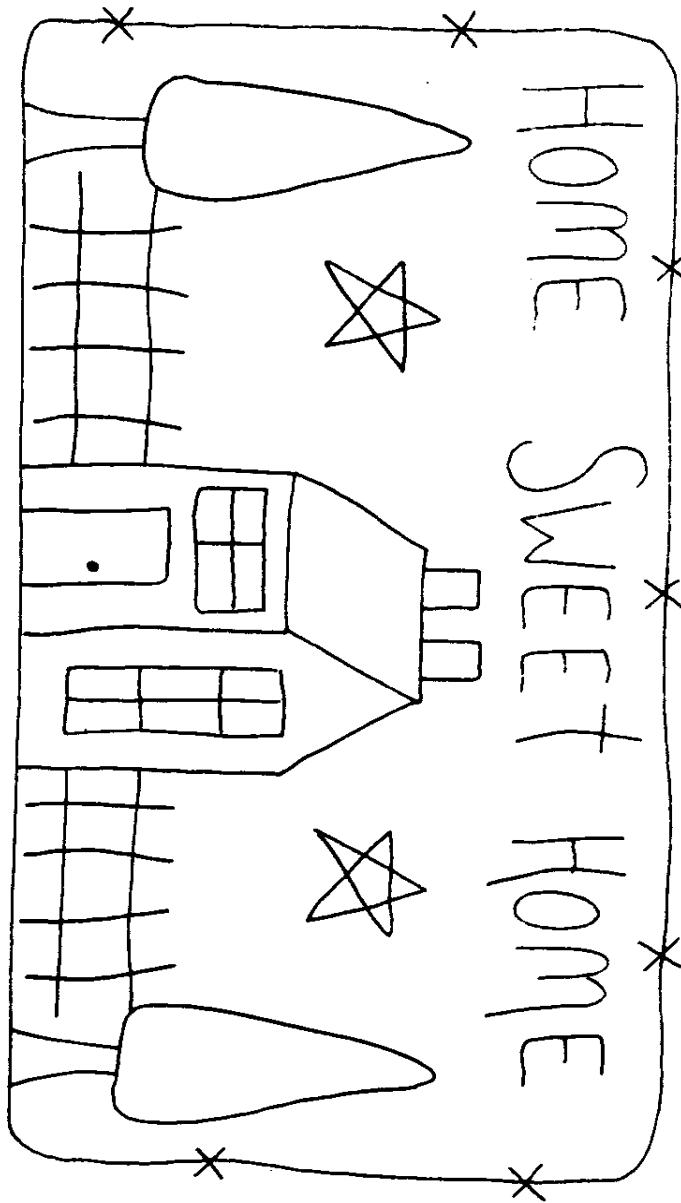

Place the squares with wrong sides together & sew a seam around the edge.

Leave an opening in the side & turn right side out.

Stuff with the polyester filling & stitch the opening closed.
